

York County Trench Challenge

May 22, 2010
Start time 1300
until finished

Sponsored by: York County Advanced Technical Rescue (ATR) Team

Tired of the same old training regiment?

Want to prove that your team is ready to respond on a complex trench rescue?

Our solution!

Teams bring as many personnel as you want! Flat fee of \$1,000 per trench (Team brings 15 personnel, \$67 fee per student). Technical rescue teams will exercise their skills real time with realistic challenges in various trenches using their own people and their own equipment. Time will be your enemy! Included in this exercise will be environmental and logistical challenges for your command structure and working part of the time in the dark. Night operations will create new and exciting challenges. Space will be limited so secure your spot now!

Light dinner and snacks included as part of the registration fee for the class. T-shirts and collectable York County ATR Trench coins are available for purchase. Location is in Spring Valley Park; Exit 8 east off of I-83. For additional details call (717) 887-8094.

York County Trench Challenge Team Registration Form
